Key type
- **COMBINATION CODE**

Double Head AS-Combo
Prod. code ASK05AHY (Black)

Description
The ASk05A has been designed to secure any two pieces of I.T against opportunistic theft. These devices typically include; laptops, TFT's, printers, projectors and desktop pc's. Each head secures any device utilising standard or non-standard security slots with user defined combination codes so no keys to lose or break. The tip of the lock is manufactured with hardened steel and tested to withstand extreme direct pressure and comes with two hi-grade steel rope tethers of 1.8m and 0.5m long respectively.
